Contents of Volume 18 · 1998/99

Abu-Awwad AM: Effects of sand column, furrow and supplemental irrigation on agricultural production in an arid environment 191

Abu-Awwad AM: Influence of vertical sand column and supplemental irrigation on barley yield in arid soils affected by surface crust 101

Abu-Awwad AM → Al-Qinna MI

Al-Qinna MI, Abu-Awwad AM: Infiltration rate measurements in arid soils with surface crust 83

Alazba AA: Design procedure for border irrigation 33

Alhadi FA, Yasseen BT, Jabr M: Water stress and gibberellic acid effects on growth of fenugreek plants 185

Allen RG → de Andrade C de LT

Alva AK, Prakash O, Fares A, Hornsby AG: Distribution of rainfall and soil moisture content in the soil profile under citrus tree canopy and at the dripline 109

Arévalo S → Habit E

Austin NR, Prendergast JB: Use of kinematic wave theory to model irrigation on cracking soil 1

Bertrán C → Habit E

Bonachela S, Orgaz F, Villalobos FJ, Fereres E: Measurement and simulation of evaporation from soil in olive orchards 205

Burt CM → Solomon KH

Čaki E → Stričević R

Cardon GE → Scheierling SM

Chhabba DS → Minhas PS

Columbus D → Levy Y

Copeland KS → Yazar A

de Andrade C de LT, Allen RG: SPRINKMOD – pressure and discharge simulation model for pressurized irrigation systems. 1. Model development and description 141

de Andrade C de LT, Allen RG, Wells RD: SPRINKMOD – pressure and discharge simulation model for pressurized irrigation systems. 3. Sensitivity to lateral hydraulic parameters and leakage 157

de Andrade C de LT, Wells RD, Allen RG: SPRINKMOD – pressure and discharge simulation model for pressurized irrigation systems. 2. Case study 149

Duce P → Ventura F

Dusek DA → Yazar A

El-Nadi AH → Saeed IAM

Fares A → Alva AK

Fereres E → Bonachela S

Ghahraman B, Sepaskhah AR: Use of a water deficit sensitivity index for partial irrigation scheduling of wheat and barley 11

Guy JR → Yunusa IAM

Habit E, Bertrán C, Arévalo S, Victoriano P: Benthonic fauna of the Itata river and irrigation canals (Chile) 91

Hornsby AG → Alva AK

Howell TA → Yazar A

Jabr M → Alhadi FA

Kang Y, Yuan B-Z, Nishiyama S: Design of microirrigation laterals at minimum cost 125

Kawano H → Li J

Levy Y, Columbus D, Sadan D, Lifshitz J: Trickle linear gradient for assessment of the salt tolerance of citrus rootstocks in the orchard 181

Li J, Kawano H: Sprinkler performance as affected by nozzle inner contraction angle 63

Lifshitz J → Levy Y

Mateos L: Assessing whole-field uniformity of stationary sprinkler irrigation systems 73

Minhas PS, Singh YP, Chhabba DS, Sharma VK: Changes in hydraulic conductivity of soils varying in calcite content under cycles of irrigation with saline-sodic and simulated rain water 199

Mishra HS, Rathore TR, Tomar VS: Root growth, water potential and yield of irrigated wheat 117

Mojid MA, Wyseure GCL, Rose DA: The use of insulated time-domain reflectometry sensors to measure water content in highly saline soils 55

Nishiyama S → Kang Y

Orgaz F → Bonachela S

Prakash O → Alva AK

Prendergast JB → Austin NR

Rathore TR → Mishra HS

Rose DA → Mojid MA

Sadan D → Levy Y

Saeed IAM, El-Nadi AH: Forage sorghum yield and water use efficiency under variable irrigation 67

Scheierling SM, Cardon GE, Young RA: Impact of irrigation timing on simulated water-crop production functions 23

Sepaskhah AR → Ghahraman B

Sharma VK → Minhas PS

Singh YP → Minhas PS

Snyder RL → Ventura F

Solomon KH, Burt CM: Irrigation sagacity: a measure of prudent water use 135

Spano D → Ventura F

Stričević R, Čaki E: Relationships between available soil water and indicators of plant water status of sweet sorghum to be applied in irrigation scheduling 17

Tomar VS → Mishra HS

Ventura F, Spano D, Duce P, Snyder RL: An evaluation of common evapotranspiration equations 163

Victoriano P → Habit E

Villalobos FJ → Bonachela S

Walker RR → Yunusa IAM

Wells RD → de Andrade C de LT

Wyseure GCL → Mojid MA

Yasseen BT → Alhadi FA

Yazar A, Howell TA, Dusek DA, Copeland KS: Evaluation of crop water stress index for LEPA irrigated corn 171

Young RA → Scheierling SM

Yuan B-Z → Kang Y

Yunusa IAM, Walker RR, Guy JR: Partitioning of seasonal evapotranspiration from a commercial furrow-irrigated Sultana vineyard 45
